

ULTRALAC COMPLEMENTAIRE

Enhancing its whole milk

Complementary milk replacer for rearing calves, in mixture with whole milk.

- Due to its profile too rich in fats, **whole milk can cause digestive problems.**
- This feed brings a better **nutritional balance to the meal.**

GMO FREE

Bucket

Made in France

10kg bucket

Vodor's advices

Preparation

- In mixture with 45°C whole milk.

Dosage

- 20g of product per liter of whole milk.
- **1 dosette (60g) for 3L of whole milk.**

Feeding tips

- Find the dosette inside the bucket.
- Opened buckets should be well reclosed after use to avoid external contamination. Store in a cool dry place (<25°C).

DO NOT USE ANTIBIOTIC MILK !

PAY EXTRA ATTENTION TO THE CLEANING OF YOUR MILK DIET EQUIPMENT.
